

FINALLY, A VALVE ACTUATOR YOU CAN SET WITH PUSH-BUTTON EASE.

The revolutionary IntelliValve™ Valve Actuator lets you set just the right flow for filtration and water features. Its intuitive controls and LED position indicator lights make operation fast and push-button easy. Thirteen (13) bright LEDs provide a clear visual indication of the valve position from fully open to fully closed and everywhere in between. Simply use the left/right and Save buttons to set the perfect flow rate in just seconds.

PRODUCT FEATURES

- Exclusive thirteen (13) LEDs give precise, easy-to-read indication of valve position.
- Built-in interface allows quick and simple setup of valve position.
- Sleek, minimalist design is compact and fits easily within any equipment pad.
- Sealed, maintenance-free design is weatherproofed for maximum reliability and extended service life.
- Suitable for 40mm, 50mm and 80mm valve sizes.
- 24-volt operation for use with standard automation systems.
- 750mA max amp draw.
- Adjustable in 3.75-degree increments within the maximum 180-degree swing.
- No cams to adjust. No micro-switches.

- A. Simple, easy-to-use interface for setting just the right valve position and water flow.
- B. Exclusive LED position indicator lights eliminate the hassle and guesswork common when setting up standard valve actuators.
- C. Sealed design ensures long life.
